## The NEW Montgomery County Chamber of Commerce Business Magazine Gets Results for Advertisers!

"Many people called us and said they saw us in the Montgomery County Chamber of Commerce Magazine. We definitely got business from our exposure and we will definitely do business again in the magazine."

"The Montgomery County Chamber Magazine is a new outlet for reaching our customers. We are sold on the value of this high quality publication, which has proven its effectiveness through the ads Plymouth Meeting Mall has placed. The Marketing Director, Concetta Rafanello, understands the mall's needs and I look forward to advertising in the upcoming editions."

"I would like to thank everyone over at Montgomery County Chamber as well as the Local Pages. Last year we started advertising with the Montgomery County Chamber of Commerce Magazine. We have not only seen good responses, but those responses were qualified leads which in turn became nice sales for our company.

I must say that the amount of help and attention in getting our ad laid out was pleasantly unexpected. Your staff has literally put the ad together with just our basic company profile and a little bit of communication from us. It was great to see our ad done in a short period of time with very little else needed

Many thanks to the Montgomery County Chamber for your support and to the Local Pages for their professional advertising. Job well done!"

— Robert McGinley (V.P. of Sales)
